## PROFILE SUMMARY

Targeting **Full Stack Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Java full stack (**Core java, Advance java, Spring boot, MySQL, React**) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

## PROJECTS

**Customer Registration System** **March 2024 - May 2024**

**Tools: Java, Spring Boot, MySQL**

A robust customer registration system designed to handle user registration, validation, and data management efficiently.

**Responsibilities:**

- Developed the backend using Java and Spring Boot, ensuring a scalable and secure system architecture.
- Implemented user registration with validations based on mobile number, email, and PAN card to ensure data integrity.
- Utilized MySQL for data storage, handling CRUD operations and maintaining consistent data management.
- Integrated a third-party API for OTP generation and verification, enhancing security for user registrations.

**Personal Responsive Portfolio Website**

**June 2024 - July 2024**

**Tools: React, CSS, JavaScript**

A visually appealing and responsive portfolio website to showcase personal projects and skills in a structured and aesthetically pleasing manner.

**Responsibilities:**

- Designed and developed the front-end using React, CSS, and JavaScript, creating a responsive and user-friendly interface.
- Implemented a dynamic layout to display projects and skills efficiently, ensuring a seamless user experience across devices.
- Added interactive elements and animations to enhance the visual appeal and user engagement of the portfolio.
- Ensured cross-browser compatibility and optimized the website for performance and loading speed.

## SKILLS

**Languages:** Core Java, Advance Java, JavaScript

**Object-Oriented Programming (OOPs)**

**Frameworks:** Hibernate, Spring Boot, Collection, React

**Version Control Systems:** Git

**Tools:** Eclipse, Postman, Maven, MySQL Workbench, VS Code

**Database Management:** MySQL

## CERTIFICATIONS

**Certificate 1:** Java Full Stack Development

**Certificate 2:** Zertifikat A2 German Language
